Company reports and overview of activities:

Discussion of company reports focussed on matters previously discussed:

Members sought details of the company position on response to the public and the nine government agencies which had also provided written submissions.

Feedback has been foreshadowed in the previous two meetings as the company's response to the agencies and public consultations was being consolidated and was to be presented to this meeting. David Santos Tomas noted that he was yet to be briefed on this matter.

Members raised a number of points regarding transport and roadway issues.

Maurice Newman referred to his letter to the NSW Minister and matters of jurisdiction were raised. In response to further discussion Cr Paul Culhane agreed to approach the Council to seek the facts around the jurisdictional responsibility for Woodhouselee Road.

David also took on notice a request from the committee to provide details for the neighbour agreements, including financial arrangements and how many agreements are in pace and how many are in negotiation.
